

## DECLARATION OF DECONTAMINATION

Due to the legal regulations and for the protection of our employees, every return of goods must be accompanied by a completed and signed declaration of decontamination. We kindly ask you to pack the return consignment professionally so that damage to the instruments is reduced and the risk of injury to our employees is avoided.

For any incidents which occurred as a result of incorrect decontamination you may be held liable.

Please sign the declaration of decontamination after the correct decontamination process. Orders without a completed declaration of decontamination cannot be processed and will be returned to the sender at the sender's expense.

We do not accept returns or repair orders for any instrument which have been exposed to prions or other critical substances which cannot be sterilized using standard sterilization techniques.
